Checked by Vera

18 Nov 2025

12 min read

221 marketing leads, H2 2025. Weekly use is at 60.2%. Training sits 21.3 points behind it.

What we found

4 findings, each one a section

01

60.2%

use AI every week

133 of 221 teams use AI every week, so the question in most rooms is how well, not whether.

[Read it →](#)

02

38.9%

have trained their team

Only 86 of 221 have trained anyone, which leaves 21.3 points of use nobody taught.

[Read it →](#)

03

34.4%

have a written AI policy

76 teams have a written policy. The rest are making the rules up one prompt at a time.

[Read it →](#)

04

14.5%

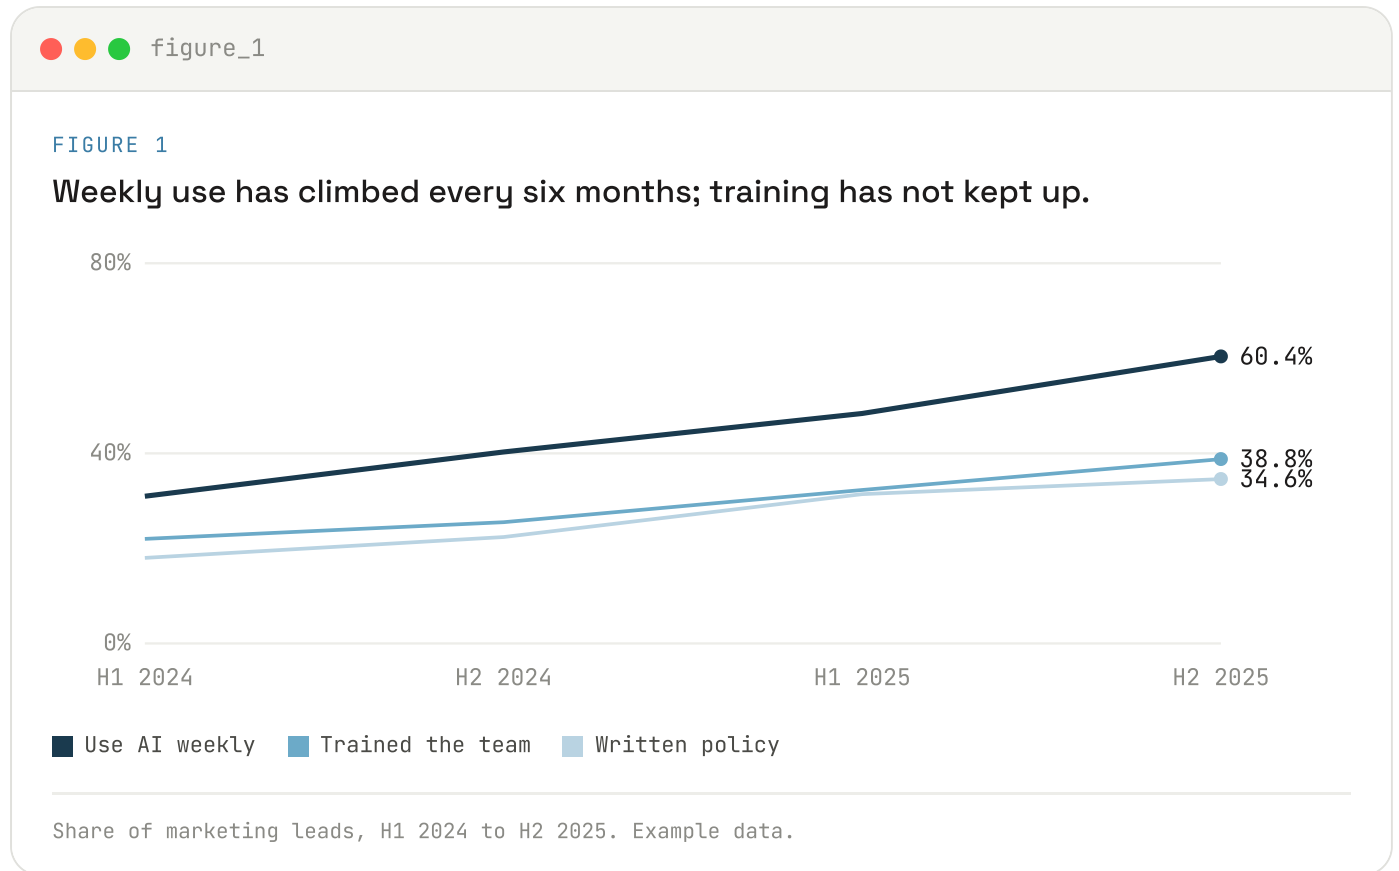

run an agent on its own

32 of 221 have an agent that runs without a person starting it. That is where the next gap opens.

32 of 221 have an agent that runs without a person starting it. That is where the next gap opens.

14.5%

run an agent on its own · 32 of 221

METHOD

How we did it

The sample

221 marketing leads, read for The State of AI in Irish Marketing H2 2025. Example data, made up for the mockup.

The method

A panel of Irish marketing leads, asked the same questions every six months, with the answers checked against their own job ads and websites.

The check

Vera checked every number against the source before it went on the page.

What is free
