110 of 179 replies answered what was asked; the rest sent a link or a form.

FINDING 3

50 firms have a website chat that replies at all.

27.9%

have a chat that replies • 50 of 179

METHOD

How we did it

The sample

179 firms, 537 questions, read for The Mystery Shop Q2 2026. Example data, made up for the mockup.

The method

An agent sends the same customer question to each firm's website chat, email and phone, and scores the reply for speed and for whether it answered.

The check

Cato checked every number against the source before it went on the page.

What is free

Every finding and figure. Every finding and every figure on this page, no form.
