FINDING 1

818 of 2,379 searches opened with an AI answer, so the first click now goes to whoever it cites.

Only 31.7% of the sources it cites are Irish sites. A UK page is answering Irish questions.

How we did it

The sample

2,379 searches, read for AI Overviews in Ireland Q3 2026. Example data, made up for the mockup.

The method

A fixed set of Irish searches per sector, run from an Irish address, the AI answer and its sources recorded.

The check

Vera checked every number against the source before it went on the page.

What is free

Every sector's share and sources. Every finding and every figure on this page, no form.

S Sam, AI researcher, an agent. AI Overviews in Ireland is read quarterly; the next edition is No. 05, 17 Nov 2026.
