

PREPARED FOR DAVID MADDEN, KAPTURE

Build the Kapture marketing team you never had

A small marketing team, built for Kapture and handed over: Outbound Agents that win you new estate agents at scale, a copywriter and a ghostwriter in your voice, and a website builder that rebuilds your site and a page for every prospect. This is the plan, and the ways to start.

Quality first, then automate

IRELAND'S MARKETER OF THE YEAR, 2022

Before I build anything, I ask one question: what does really good look like here? Not what AI can do, but the best version of this marketing, and the level of quality I would want to stand over.

So I start where I always have. If there were no AI at all, what team would I hire to do this properly? Someone doing outbound to win new agents, a copywriter, someone building your authority, and someone to build and run the websites. **I map that team first, then build exactly it, with agents instead of hires.**

Twenty years in brand is what tells me where the bar sits: Head of Brand at O2 Ireland, then CMO at the National Lottery, Head of Brand at Indeed and Miro, both global roles. Positioning, messaging and tone are written first, then built into everything the agents make.

WHO I WORK WITH

Moloco

Heineken

Norcros

Alltech

Smurfit

Hostelworld

Eaton Square

Weatherbys

"His command of marketing science as well as his instincts for great thinking and ideas are, in my opinion, superb."

Peter Field · The Godfather of Effectiveness, author of The Long and the Short of It

"Paul reported into me as Head of Brand when I was at Indeed. I have learned more from him than anyone else in my career."

Paul D'Arcy · CMO, Moloco. Former CMO at Miro and Indeed

The product wins. Getting in the door is the bottleneck.

Everything here comes from our conversation. Kapture's media is demonstrably better than anyone else's, and you have just won Sherry FitzGerald and Lisney to prove it. But every client is still won by hand: you, on LinkedIn, one agent at a time. That does not scale to the UK and the US ahead of the raise. The selling stays human, that is where the judgement is. Everything around it, the finding, the writing, the pages, the authority, is what should run without you in the loop. Here are the products I'd recommend, each configured for Kapture and handed to your team.

-
- 01 **Outbound Agents.** Find the right estate agents, enrich them, and write each one a personalised, relevant LinkedIn message at scale across all five of your accounts. It never sells; it does the finding, writing and prep that eats the week.
 - 02 **Website Builder.** Rebuilds kapture.ie to look as modern as your work is good, and builds a portfolio page for a named agent the moment they click your outreach.
 - 03 **Copywriter.** The outreach lines, web copy and captions, in your voice, always modern and premium, never "the cheap option".
 - 04 **Ghostwriter.** Turns your point of view into LinkedIn posts and a newsletter, building authority and moving the agents you know onto an owned channel.
-

Four agents, configured for Kapture

AGENT 01

Outbound Agents

Before AI, scaling B2B outreach meant doing it all by hand, as you do now, or hiring an outbound sales team (you were about to hire one in the Philippines). The Outbound Agents are that team's work: finding the right estate agents, enriching them, and writing each one a personalised, relevant message at scale across all five of your LinkedIn accounts, then sequencing and tracking. They never do the selling; the meeting judgement stays yours.

It references the property they have listed with poor media, the fact you already shoot for the big agencies, and offers a before-and-after as a link, not an attachment. And it researches an inbound inquiry before your call, so your team of five never scrambles for the background.

Uses: LinkedIn (five accounts, not cold email, for GDPR) · enrichment tools · your own Claude · your before-and-after library.

AGENT 02

Website Builder

You said kapture.ie is a brochure site that needs updating. In a world before AI, a rebuild meant a designer, a developer and a producer. The Website Builder is that whole role in one: it takes the brief, does the UX and UI, builds the pages to your brand, and pushes them live to hosting.

Once your design rules are decoded up front, a new page, a case study, or a portfolio built for one named agent is a sentence, not a project, triggered the moment they click your outreach. The version in the web proposal is a quick first pass with no proper brief; a briefed build, with your own photography, is a different, better thing.

Uses: your own Claude · Vercel hosting · does the work of a designer, a developer and a producer.

AGENT 03

Copywriter

Nearly all marketing needs writing. Before AI, companies' options were a full-time copywriter most cannot justify, a freelancer, an agency, or having a go yourself. Good writing that carries your positioning takes real time and craft.

A copywriter trained on Kapture's voice writes the outreach lines, the web copy, the captions and the offers, at volume, always modern and premium, and never "the cheap option". Your team approves every line.

Uses: your own Claude · your voice and positioning · your case studies (Sherry FitzGerald, Lisney, the Foxrock property).

AGENT 04

Ghostwriter

You have a real edge and a real story, an ex-agent who saw the quality gap and fixed it, but authority only compounds if the point of view gets published, and that takes an expert's time plus a ghostwriter most companies do not have.

The Ghostwriter turns your point of view into a steady stream of LinkedIn posts and a newsletter, in your own voice, grounded in your real experience. LinkedIn is the first touch; the newsletter moves the agents you are connected to onto an owned channel over time. It never invents a view; it publishes yours.

Uses: your own Claude · your point of view and LinkedIn · your real case studies.

HOW TO START

Build the whole system, or start with one or two

Two ways in, and both leave you owning what we build, in your own tools, in your name. My honest recommendation is to start with the proof of concept: the outbound and the rebuilt site that only really work when they work together, then scope the rest from what you learn.

OPTION A · PROOF OF CONCEPT

The outbound engine and a rebuilt site, working together

- > Outbound Agents live across your five LinkedIn accounts
- > A rebuilt kapture.ie, modern and to standard
- > The two linked: a prospect clicks your outreach and lands on a page built for them
- > Your positioning and voice decoded, so both are properly on brand

€15,000 + VAT

Tools (LinkedIn, enrichment, Claude Code, hosting) are separate, sized and agreed with you.

OPTION B · THE WHOLE SYSTEM

All four, built and handed over

- > The Outbound Agents and the Website Builder
- > The Copywriter, trained on your voice, across everything
- > The Ghostwriter, building authority on LinkedIn and a newsletter
- > Your team trained to run all of it

€12,000 per month

× four months = **€48,000** + VAT

Scoped with you first. Tools separate, as above.

WHAT THE PRICE COVERS

The build, the decoding, the linking, the handover and the training. You are buying the system and the capability your team is left with.

WHAT IT DOESN'T

Your own tool subscriptions: LinkedIn, the enrichment tools, Claude Code and hosting, which stay in your name and your ownership. A modest, predictable software bill, sized and agreed with you before a euro is spent.

Book a time to chat

Thirty minutes is enough to choose the way in. Book a time at cal.com/paul-dervan-mjfd50, or email me directly at paul@runwithfoxes.com.
